Lâkë is a witch-giant, keeper of the Wolf-Mountain. She's also the mistress of the all the wolves of the mountain. She likes presents and will usually not eat the trespassers which are unfortunate enough to pass over her mountain, if they bring her a gift. She expects a gift from each traveller in a group, the group members who has a suitable gift for her may go free, those who doesn't may not. It has happened more than once that group-travellers have misunderstood this and only brought her one gift to her liking.

She lives in a large cottage, just by the foot of a small cliff. From her chimney a dextrous person could reach the cliff and climb over.

She has a medium-size quarterstaff, which she uses as a wand of magic missiles. She prefers to use her climb skill to get out of reach and use spells and wand for combat in the first 2-3 rounds. Then she will change to hybrid form and jump into melee.

Spells per day: 3

Sorcerer Spells Known: 0 – Detect Magic, Read Magic, Ray of Frost, Mage Hand; 1 – Burning hands, Shocking grasp.
